1. Central Park

1. **Playground** -We are working on picking exact colors for the structure and the poured in place. We are close enough to a decision that we are hoping to share with the public at Explore Your Parks Night.
2. **Dugout Shelters** - Tim is still waiting on a response for a quote.
3. **Central Park Water Feature** - We discussed possible cost and whether we are interested in moving forward. The playground takes precedence.

2. Other Updates

1. **Park Signage/Naming Rights** - Adam is still working on this.
2. **Main Street Updates** - This will be happening sooner than we thought, so it was brought up that we will need to start thinking about the design of the entrance to Central Park.
