

**City of Albertville Parks Committee**  
**Monday, August 26th, 2024**  
Minutes

**Present:** Pat Adamski, Leroy Berning, Tim Guimont, Rob Olson, Alanna Lau, Lauryn White

**1. Central Park**

1. **Playground** - The Albertville City Council approved our design. We are moving forward with the hope that we can break ground Summer 2025. We will be reaching out to Bailey with Landscape Structures to invite her back to get official numbers written up.
2. **Dugout Shelters** - Tim has 2 contractors writing up bids for the design.
3. **Water Feature** - The Albertville Lions would like to know what the City is thinking for this design so that they can talk about sponsorship.
4. **Lights** - We discussed that fact that we have lights for Central Park that haven't been installed yet. We are looking into getting those up sooner rather than later.
5. **Legion Ball Update** - There will be a tournament here in 2025. They are looking at needing bleachers for the fields and fencing. We talked about some options and will discuss this more at a later meeting. There was also discussion about needing to lock up the field to keep the pitchers mound covered and protected. There was no decision on whether that is needed at this point or not.

**2. Other Updates**

1. **Main Street Updates** - The City Council is working on a design. There is nothing for us to review at this time. Adam plans to be present for our October meeting to discuss this.
2. **Ticket Booth/Storage Building** - The City of Albertville purchased a garage on this side of 94, so that will suffice for storage at this time. We will table the ticket booth at Central Park for now.
3. **Joey Bongarts Bench** - Tim is going to send bench options to the Joey Bongarts Fund to help find the correct style bench for Four Seasons Park.
4. **Linwood Park Updates** - The park basketball hoops, court surfaces, and the fence will receive upgrades. The tennis courts will be painted for tennis and pickle ball.

3. **Open Seat on Committee** - No letters of interest for us to review at this time.

**Next Meeting : September 23rd @7:00pm**
